Marbled card B6 „Merci“

Used items:

80 577 103	Card B6, HD, white metallic	1 pc
80 579 103	Envelope B6, white metallic	1 pc
80 575 103	Letterhead A4, white metallic	1/6 sheet
80 276 000	Insert card	1 piece
80 505 102	Letterhead A4, parchment	1 piece
33 873 00	3D-adhesive squares	2 pieces
28 583 00	Stamp „Merci“	1 piece
28 383 576	Stamp pad "StazOn", black	1 piece
38 861 102	Marble Paint, white	1/50 bottle
38 861 606	Marble Paint, silver	1/50 bottle
38 861 576	Marble Paint, black	1/50 bottle
55 352 102	Paper cord, 1,2 mm ø, white	1 m

Additionally you need:

62 039 00 Wooden skewers
Plastic bucket
Copy paper
Disposable gloves

Instructions:

1 Choose a plastic bucket that is enough large/deep to dip the card thoroughly into it. Then, fill the plastic bucket with cold water. Thereafter, shake well the Marble paint bottles (about 30 sec), especially the silver one since this colour contains metal particles. Drip the three colours successively as near to the water surface. Then immediately draw the marble pattern with a wooden skewer.

2 We recommend you to wear disposal gloves. Hold the card transversely and immerse it slowly. Dip completely the front side and up to 1/3 of the reverse side. Retain it that way for a while and take it out quickly. Before taking out, puff a bit onto the water surface so that the paint flows to the edge. let the card dry well out.

3 Remove the paint residues with a sheet of paper (with the edge of the paper). The water must be clean for a further marbling. If heavily soiled, use fresh water.

4 Cut a blank out of the letterhead measuring 8 × 5.5cm and affix it onto the card by means of the double-sided adhesive tape. Thereafter, stamp the parchment coloured letterhead by means of the stamp "Merci" and the stamp pad. Then, finish the paper cut-out of 6.5 x 4cm. Cut it so close that the word "Merci" is centrally located and stick it onto the white paper cut-out by means of the 3D-adhesive squares.
