# Round cakes

[WWW.RAYHER.COM](http://WWW.RAYHER.COM)

### Used items:

<b>34 229 000</b>	Creative-soap	1700 g
<b>36 033 000</b>	Casting mould: circle, 25 cm ø	
<b>34 223 000</b>	Kneading-soap	150 g
<b>34 246 532</b>	Soap dye, nougat	
<b>34 246 313</b>	Soap dye, purple	
<b>34 246 426</b>	Soap dye, evergreen	
<b>34 226 000</b>	Creative-soap	25 g
<b>89 799 000</b>	Pastry bag with 4 tips	

### Additionally you need:

**86 198 000** Set of metallic cookie cutters  
Kitchen scales, pot, melting pot, small plastic container, stirrers, kettle, cooking oil, craft stick, plastic lid or alum.foil

### Instructions:

- 1** Melt the creative-soap in a water-bath on the stove (max. 60° - do not boil).
- 2** After the complete melting, you can stir the desired colour and/or fragrance oil in the liquid soap. Therefore, use a wooden spatula or a teaspoon.
- 3** Pour it dropwise.
- 4** The cake consists of four different colour layers. It means that the cake should be cast in stages. You have to start with the lowest layer, let it cool down for a while and continue to do more of the same, one layer at a time. The last uppermost layer should end at the upper border of the casting mould.
- 5** Let the soap dry well out (at least 2-3 hours, ideally one day).
- 6** Demould the cake by a slight pressure.
- 7** Now, you can spread the chocolate glaze over the cake (see instructions for chocolate glaze).

**8** Once the glaze has dried well out, you can cut the cake into pieces and decorate it with cream rosette (see instructions) and the cutout hearts (see instructions).

**9** You can make the green leaves out of the transparent green cast wax sheet.

#### Instruction for the cream rosette

**10** Mix the kneading-soap with hot water and the cooking oil, for e.g. 50g of the kneading-soap with 20ml of hot water and about 5ml of the cooking oil.

**11** Stir this mixture with a craft stick and let it rest for 10 minutes.

**12** Then knead the mixture well again.

**13** Build together a pastry bag (without a bag) and fill it with some kneading-soap.

**14** Push the kneading-soap with a finger through the tip and shape at once the pushed out mixture.

You will find material specifications and instructions on our homepage.

TIME REQUIRED

**2 HOURS**

(WITHOUT DRYING TIME)

LEVEL OF DIFFICULTY

#### **Instruction for the cake glaze**

**15** Melt the creative-soap in a water-bath on the stove (max. 60° - do not boil).

**16** After the complete melting, you can stir the nougat colour in the liquid soap. Therefore, use a wooden spatula or a teaspoon.

**17** Pour it dropwise.

#### **Instruction for the soap sheet**

**18** Melt the creative-soap in a water-bath on the stove (max. 60° - do not boil).

**19** After the complete melting, you can stir the colour in the liquid soap. Therefore, use a wooden spatula or a teaspoon. Pour it dropwise. Pour the melted soap onto a flat surface such as for e.g. a small lid or some aluminum foil.

**20** Once the soap hardened, after at least half an hour, you can cut the desired motifs out by means of the cookie cutters.
