Wrapped fir tree

Used items:

34 369 000	Soap casting mould: Christmas	1 piece
34 246 426	Soap-colour, evergreen	2 drops
34 228 000	Creative-soap	46 g
34 337 000	Labels "merry X-MAS"+Christmas tree	1 piece
55 704 616	Glitter-ribbon, gold	20 cm
51 752 06	Cord without wire, gold	20 cm
29 085 000	Statement-stamp "Frohes Fest"	1 piece
28 390 576	Stamp pad "Memento", black	1 piece
46 088 000	Wooden tag with cork star	1 piece
67 218 000	Block bottom gift bag	1 piece

Additionally you need:

Stove, pot, melting pot, scales, small plastic container, craft stick as a stirrer, spoon

Instructions:

- 1 Melt the creative-soap in a water-bath on the stove (max. 60° - do not boil).
- 2 After the complete melting, you can stir the desired colour in the liquid soap. Therefore, use a wooden spatula or a teaspoon.
- 3 For the soaps with motif or logo, place upwards the label with the stamping in the cleaned casting mould.
- 4 To avoid blistering or slipping of the label, use at best a tablespoon with which you fill the casting mould with the liquid soap.
- 5 Let the soap dry well out (at least 2-3 hours, ideally one day).
- 6 Demould the soap by a slight pressure.
- 7 Now, you can pack the finished soap into a block-bottom gift bag, close it with ribbons and fasten the stamped wooden tag onto it.

Additional info

The soap dries or rather carries on ripening and becomes thereby firmer (two up to three weeks). Depending on the temperature and airiness, the soap can perspire. We recommend therefore to wrap the soap after its demoulding in a cellophane foil. Clean the soap casting mould and the pots with hot water.
