| <b>14 799 558</b> | Rocailles-Mix with big hole, 5,5 mm ø, grey shades | 32 pcs         |
| <b>14 690 572</b> | "Silk-Bead" Glass Rocailles, 4 mm ø, anthracite    | 44 pcs         |
| <b>14 745 576</b> | Miyuki Glass sticks, black                         | 14 pcs = 0,5 g |
| <b>14 055 22</b>  | Rocailles, 2,6 mm ø, with silver inlet, silver     | 3 g            |
| <b>85 464 606</b> | Deko-feather white with star, silver               | 2 pcs          |

## Instructions:

- 1 Wrap 3 cm of the double-sided adhesive tape around the ring.
- 2 Place 1.20 m satin ribbon at an angle and wrap completely the ring around.
- 3 Knot the 1.60 m threading silk on the ring.
- 4 The knot shows inwards so secure it with some glue for jewellery.
- 5 Thread the needle for threading beads, then thread successively the beads on.
- 6 At a distance of 5cm, place the threading yarn around the ring and then rethread through the last bead, so that you get your first bead arc.
- 7 Thread the next 6 arcs.
- 8 Thread the end of the last arc through the first bead of the first arc.
- 9 Now thread back the pearlescent shimmered bead Rocaille through the first arc up to the middle.
- 10 Continue by threading the next arcs through these 3 beads until the circuit is closed. Now knot the threading yarn.

- 11 Thread zig-zag until a desirable pattern is reached, then sew up the threading yarn through the bead arc.
- 12 Sew up the starting thread as well.
- 13 Thread the yarns of the two deco-feathers into the needle for threading beads.
- 14 Thread the beads, now thread on the silver-lined 10 Rocailles, place it around the ring and then thread it back through the previously strung beads.
- 15 Thread again the yarns on the reverse side of the feathers by going through the lowest bead until there is a small loop, put some glue for jewellery on it and pull it through.
- 16 Cut off the yarn ends, secure also the rests with some glue for jewellery and let it harden.
- 17 Knot on the upper side a hanger with 0.5m satin ribbon.
