Instruction:

- 1 First punch out a star with each motif-puncher from the set.
- 2 Lay the stars on the unfolded card B6 in burgundy colour, according to the desired spot and trace around them with a pencil.
- 3 Then carefully cut out the stars with the precision craft cutter.
- 4 Cut the PP foil to the size of 8 x 8 cm with the precision craft cutter. Cover this cutting with the extra strong double-sided adhesive tape on all four sides.
- 5 Open the card and glue inside the PP-foil cutting over the cut stars. Cover the cutting with the spacer tape on all sides. Make sure that no blank space is left!
- 6 Use different colour shades from the sequin mix "Glam" to create a nice layered effect. Then scatter the sequins as you like.
- 7 Now apply several strips of spacer tape according to the picture.
- 8 Take the second card B6 in burgundy colour and cut it through 2 mm from the fold. Stick it on the inside of the card.
- 9 Stamp the card B6 in ivory colour with the wooden stamp Star. Allow it to dry well out.
- 10 Cut out the stamp impression using the star pattern. Cover the star-shaped cutting with the spacer tape and attach it to the card.

- 11 Stick a strip on with approx. 1 cm distance from the lower edge of the card by means of the glittered tape.
- 12 Cut about 50 cm of the golden satin ribbon, wrap it around the card and knot it.
