Additionally you need:

Dishwashing detergent and sponge, water, tea towel

Instructions:

1 Firstly, clean the bamboo bowl with a sponge, dishwasher detergent and water. Dry the bowl well out, because the surface should be free of dust & grease and dry, so that the colour adheres optimally.

2 Cut out the respective motifs from the stencil and place the palm leaf first on the cleaned surface.

3 Start with the flat brush to apply the well stirred jade Chalky Finish paint through the sieve.

TIP: Let the paint dry well between stenciling.

It is important that you hold the stencil firmly, so that it does not slip.

4 Clean the stencil immediately with water and the cleanser for brushes & stencils by means of the sponge. Lay it on the tea towel and dry it well out on both sides.

5 Let the stencil air-dry briefly and then you can carefully stencil the second palm leaf on its rear side.

Since the paint does not dry out quickly, you should work in stages to ensure an optimum drying result.

6 Once the paint has dried out, stencil the palm leaf in the colour avocado by overlapping it. Finally, stencil the hibiscus flowers and the lettering Tropical over the leaves. A particularly beautiful effect arises when you combine the colours pink and apricot while stencilling into one motif.

7 Let the paint dry for at least 24 hours before using the bamboo bowl.

8 Afterwards, you can rinse the bamboo bowl by hand wash or clean it gently in the dishwasher at approx. 65° C.

9 The colour is additionally fixed by rinsing in the dishwasher.
