some glue for the small particles

### Instructions:

Put up, for easier handling, each styrofoam egg on a wooden skewer and then spread the spatula cream on thinly with a metal trowel. After drying, wrap the bast and the yarn around the egg, knot it firmly and add the feathers.

### Instructions:

Paint those styrofoam eggs, once the spatula cream has dried out, with Chalky Finish colours powder pink, vanilla and blue grey. For this purpose, use the flat brush and let the paint dry well.

Wrap the bast and the cotton ribbon around the egg, knot it firmly and decorate it with MDF-small particles.

**TIPP:** The decorated eggs look very good on the cork-disc 62 114 00. With the adhesive dots 30 056 000, you can easily place the eggs.
